EASTER SEAL CAMPAIGN IS PLANNED HERE

The annual Easter Seal campaign through which funds are raised to help physically handicapped boys and girls in Adams county will be conducted this year from March 9 to April 9, according to plans announced today by the Adams County Crippled Children's society.

Dr. R. S. Saby, president of the society, said the campaign will be part of a state-wide and nationwide Seal sale designed to raise funds to carry on the humanitarian effort of helping crippled youngsters, an estimated 95 of whom reside in this county.

"It is our hope that this year's Easter Seal drive will far exceed those of past years in the amount of funds raised," Dr. Saby said. "With a constantly increasing population, we have also a constantly increasing number of handicapped children and adults and thus a growing demand for specialized services."

Expanding Services

"Then, too, we are reaching more and more of the handicapped who heretofore stayed beyond the reach of agencies such as ours. We have a responsibility to continue expanding our services to aid all of those who require assistance. Obviously, we need greater funds to do this adequately."

"We desire to expand our program to help more youngsters because past experience has proved that nearly all of the handicapped can be aided to lead a normal useful life. Everyone of them should have a chance for improved physical conditions, proper schooling, and vocational guidance into useful occupations."

The campaign, Dr. Saby explained, will be conducted mostly through the mail. Seals, which will be sent to individuals throughout the county, were prepared and mostly all of the other work accomplished by handicapped workers. Additional seals may be obtained from the society.

TOWN MEETINGS HERE TOPIC FOR CO. HISTORIANS

The days of torchlight processions, illuminations, cannon salutes and much speechmaking at community events in Gettysburg a century ago were described for members of the Adams County Historical society Tuesday evening by Dr. Henry Stewart in a paper on "The Town Meeting in Southern Pennsylvania."

Observing that the town meeting as it was known here was typical of this part of the country, Doctor Stewart said such events here concerned civic matters, patriotic events, memorial exercises and political campaign and victory celebrations.

The names of the participants with their many vice presidents, secretaries, extensive committees and their long lists of toastmakers form a veritable who's who for that day, the speaker said. As he concluded Dr. Stewart pointed out that many of the names then familiar to this community now are among its "vanished families."

Describes Celebrations

He told of a meeting here June 3, 1846, to encourage volunteers for duty in the Mexican War and of another held in the court house in August, 1848, when a town meeting rejected a proposal to buy the Gettysburg Academy on an offer made by S. S. Schmucker. Other similar meetings of the middle 19th century were held to plan for cleaning of the town in the face of a threat of cholera and to consider in 1873 the new state constitution.

"Friends of Harrison" staged a celebration in 1840 and there was a memorial meeting after Thaddeus Stevens' death. A Taylor-Fillmore rally in 1841 was described. In the Harrison celebration in 1840, a (Please Turn to Page 2)

BUY CANADIAN SPUDS

New Orleans, Feb. 8 (AP)—While the government offers surplus potatoes to farmers at one cent a hundred pounds, American food brokers are buying Canadian spuds because they find the American price-supported tubers too costly. The situation came to light here yesterday when a million pounds of potatoes from Canada were unloaded from a boat.

Pottsville, Pa., Feb. 8 (AP)—Three of the five children of Mr. and Mrs. Clarence Hopkins are in Warren hospital with serious injuries suffered last night when a water tank attached to a coal stove exploded. Parents Left Boy, 14, To Run Farm Alone

Butler, Pa., Feb. 8 (AP)—District Attorney Clyde Shumaker said a 14-year-old boy was left alone to care for a 75-acre farm when his parents moved to town to take jobs in a bakery.

The parents, Clayton and Susanna Ames, were jailed on Monday after pleading innocent to charges of mistreatment of a minor child. Insisting the son, Clayton, Jr., is 16 rather than 14, Ames said "we haven't done anything."

Shumaker said his investigation disclosed this story: The parents moved to a rented apartment near a bakery where they obtained jobs, taking with them two daughters, aged three and 12. Clayton, Jr., was left along on the farm except for week-ends when the rest of the family rejoined him.

For the last eight months, the boy washed very rarely, never cleaned the farmhouse, and ate little, sometimes taking ketchup sandwiches to school. School teachers said they once gave the youth a bath and added that he had not had a haircut since his parents left.

Unemployment Hit New Postwar High

Washington, Feb. 8 (AP)—The number of job openings across the nation took a 1,699,000 dive last month and sent unemployment soaring to 4,480,000—highest since prewar September, 1941.

Although largely seasonal in character, reflecting the onset of winter, the development had the effect of putting out of work seven out of each 100 persons in the nation's labor force.

That left 56,947,000 civilian jobholders, plus another 1,408,000 in the armed forces, the census bureau said yesterday in a survey taken the second week of January.

Secretary of Commerce Sawyer promptly pointed out that mid-winter January and February are always the worst months for job seekers. Taking into account that unemployment last month was higher than a year ago, he said 1950's start wasn't as bad as 1949's because industrial layoffs are not responsible for so much of the out-of-work figure.

Washington, Feb. 8 (AP)—Republicans picked Liberty-vs.-Socialism as their top 1950 campaign issue today in a platform which Democrats promptly accused them of stealing from the administration.

In a 2,000-word statement of party policy for the congressional campaigns, the Republicans held themselves up as the last hope of those who oppose "an all-powerful federal government with unlimited power to tax and spend."

TOWN MEETINGS

(Continued from Page 1)
parade was described as containing carriages bearing a few survivors of the Revolution, 40 carriages of ladies and 1,500 marchers.

Dr. Stewart said he found 90 family names among 140 mentioned in connection with these events of a century ago that have "either disappeared completely or are now represented only by the distaff side." His list ran from Arnold and Blythe and Danner through McClean, McCaughy and McCreary to Stevens, Smyser and Wills.

Preparing New Map
It was announced that next month W. W. Eisenhart, Abbottstown, will complete the presentation of a history of county schools begun at an earlier meeting. Dr. Robert Fortenbaugh as chairman of the library and museum committee listed a number of accessions including a lithographer's stone used to produce publicity material for the old Oak Ridge academy here. That relic was presented by Ralph Blocher. Mrs. Cora Berkey presented a volume of poems of Mrs. Margie Himes Seebach. Dr. Fortenbaugh also told of the preparation of an historical map of the county and the society members suggested additional sites to be listed.

President J. M. Sheads presided at the meeting with more than 30 persons crowding the museum rooms in the court house basement.

Slight Increase In Crime Totals

Crime increased in 1949 over the previous year, according to the annual report of the Adams county clerk of courts completed today.

During the past year there were 217 defendants brought before the court, as compared to 206 in 1948. Of the 217, 31 were dismissed; five were acquitted by juries; 131 pleaded guilty; 39 were found guilty by the court; 11 were found guilty by juries; 14 were sent to state prisons or reformatories; 27 were given suspended sentences or placed on probation; 66 went to the Adams county jail; 39 were fined and in 35 other cases, principally non-support, other disposition was made of the cases.

Of the 206 defendants in 1948, 23 were dismissed, seven were acquitted by the court, seven were acquitted by jury action, in five other cases disposition was made without penalty; 110 pleaded guilty, 39 were found guilty by the court, 15 were found guilty by juries, six went to state prisons, 42 were placed on probation or given suspended sentences, 59 served terms in the Adams county jail, 16 were fined and 41 others had their cases disposed of in other ways.

Mt. Holly School Principal Resigns

The Mt. Holly Springs school board Monday night accepted the verbal resignation of George Messinger, principal of the Mt. Holly schools for more than 20 years, at a three-hour meeting attended by nearly 50 persons at which the troubles of the schools and the alleged rough and brutal treatment of pupils was discussed.

The school board, under pressure of parents and other taxpayers admitted that a rule had been laid down in 1942 ordering Messinger not to make any punitive regulations but refer such measures to the board. The latter admitted that the rule had been violated many times, but did not give any reason for its laxity in dealing with the principal for insubordination.

The board, however, said that teachers were not to blame, because they took their orders for punishment from Messinger.

FINISH TESTIMONY

The taking of testimony in the equity action brought by H. Jacob and Sons, Inc., Hanover, against William Re, Hanover; Irvin Pearlstein, Great Neck, L. I.; Sol Lance, Brooklyn, N. Y. and the Cannon Shoe company of Baltimore was completed Tuesday afternoon in Adams county court. Judge W. C. Sheely set April 10 as a time for the attorneys involved to present their arguments for findings of fact and the court will hand down a decision at a later date.

GHS Cagers Defeat Hershey In South Penn Contest 44-31

Leading from start to finish, the Gettysburg high cagers notched their 10th victory of the season here Tuesday evening by defeating Hershey 44-31 in a South Penn league game before a slim crowd of about 400 fans.

Coach George Porney's outfit got off to an impressive 19-7 half time lead by brilliant defensive work which limited the Trojans to but two field goals in the first two frames.

It took over two minutes for the first points which came on a side shot by Bob Krick. A few seconds later he added a foul. Hershey's first point was on a foul by Mease after three minutes. Basti made good on one of two free shots and then Deardoff landed two quick goals. Grider netted a short shot for Hershey before Krick netted the second of two fouls. Just as the period ended Deardoff fired a long shot that fell short and wide which Krick took and tossed back over his head from the corner which cut the cords to make the count 10-4 as the whistle sounded.

Tight defensive work yielded but a goal by Basti and foul by Grider for the Trojans while Gettysburg hiked its margin to 19-7 at the half on goals by Krick, Kuhn and a pair by Sachs.

Visitors Spurt

Seven straight points by Hershey to open the second period cut the Warriors lead to 19-14 after three minutes. A free toss by Krick and two by Harriel were followed by a pair of goals by Grider Deardoff landed a goal and Harriel a foul shortly before the period ended to give Gettysburg a 27-21 lead.

Midway in the final frame the score stood at 32-25 but successive goals by Deardoff, Harriel and Ford put the clincher on the game as substitutes from both benches appeared to play out the contest.

The Warriors and Trojans alike were particularly efficient from the foul line, each team missing but three shots.

Jayvees Nosed Out

Kuhn, Harriel and Deardoff supplied the offensive attack for the Warriors with Ford, Krick and Sachs putting up nice floor games.

The Warrior reserves set the pace for three periods in a low scoring affair but fell apart in the final period to drop the preliminary 22-20 as Poettie cared a long side shot to break a 20-20 tie in the last seconds.

On Friday the Warriors journey to Waynesboro to meet Cal Welliver's Golden Tornado.

As usual, the ageless negro with the "cutie" style has picked no soft touch. He may find himself in 10 very tough rounds against youthful Harold Johnson, 22-year-old negro light heavyweight who occasionally ventures into the heavyweight division.

Walcott hasn't fought since last August 14, when he knocked out Olle Tandberg of Sweden in five rounds. Too, the Camden, N. J., father of six, celebrated his 36th birthday this week. That's a mighty

JR. HI QUINTET JOLTS CANNERS FOR NINTH WIN

With their sights set on an undefeated season, the Gettysburg junior high cagers took a pair of games from the Biglerville junior high dribblers Tuesday evening at Biglerville.

Coach Rogers Herr's varsity encountered little trouble in gaining their ninth straight 41-9 after a slow start. At half time Gettysburg led 19-4.

Skinner was effective on his pivot shots while Beagle broke his scoring slump of the last few games by accounting for 15 points.

The reserves took their eighth win in nine starts in the preliminary game 46-18. Rohrbaugh performed well in stealing the ball and on fast break play while George Penn proved a capable substitute for Johnny Hartley who is injured.

On Friday the junior high leads meet Waynesboro here in what looms as a tough assignment despite a twin triumph gained at Waynesboro earlier in the season.

New Cumberland, Pa., Feb. 8 (AP)—William Charles Dittmar is the new head football coach at New Cumberland high school. old age in the fight business. Probably Joe's age never was brought home to him as vividly as it was the other day when it was discovered that he had once knocked out the father of the fighter he's meeting tonight. It was 14 years ago when Walcott knocked out Harold's father, Phil Johnson.

The big game in the Adams County Basketball league will be staged Friday evening at Biglerville where the Cannons will be host to the league-leading Boiling Springs outfit.

Gene Haas' outfit remained but half game back of the Bubbblers Tuesday evening by squeaking through to a 31-30 victory over the scrappy East Berlin cagers at East Berlin. After a nip and tuck battle all the way, the Cannons gained victory when Dick Pitzer landed a foul in the closing minute. Poor foul shooting proved costly to the Cannons.

The Biglerville reserves tallied 17 points in the third period to win the preliminary game 30-16.

Littlestown high won its second league victory by disposing of the Clay Evans' lads jumped off to a 14-5 lead in the opening frame and were never headed.

The New Oxford scrubs took the opening game 25-14.

York Springs high dropped a thriller to Newville 43-41 at York Springs. Coach Kennedy's outfit led 39-38 when the automatic time out came with three minutes remaining. Newville then tabbed five straight points on a goal and foul by Barrick and foul tosses by B. Mowery and G. Mowery. Wishard landed a goal for York Springs' final counters.

A fast finish enabled the York Springs reserves to top the Newville jayvees 33-21.

Dickinson Cagers Play Here Tonight

Dickinson college's high flying basketball team will invade the Gettysburg college gymnasium to battle the Bullet cagers in a double-header this evening which is expected to draw a large crowd.

The Red Devils have won seven of nine games as compared to seven wins against as many setbacks for Gettysburg. Dickinson plays a zone-style of defense which has proven difficult for all opponents.

At 7 o'clock the Bullet froth will tangle with the Dickinson yearlings.

While the Bullets cagers are engaging Dickinson the college wrestlers will clash with Franklin and Marshall at Lancaster in one of their stiffest tests of the season.

Today's Talk

By GEORGE MATTHEW ADAMS
NATURE'S RESTS

I would become restless and full
of desires for change if I lived within
a climate where there were unperceivable
changes throughout the year. I love the seasons of our northern
territory. There is something to
look forward to in them all—springtime,
summer, autumn and winter.
But a short time ago I sat in my home
and watched the first leaves of autumn
fall gently to the earth for their long rest
in burial. Now I look out upon trees that are bare,
though full of symmetry and character.
They look relaxed and endowed
with patience. They form a lacy cloud
before my eyes. But in another two months
buds will be bursting, and each morning I will
look out upon another miracle!

In the midst of changes we become
alert and appreciative. We, who deal in seasonal
toys or things of enjoyment, put them away, then
look forward to taking them out again,
so that we have both backward and forward
thrills! Memories, fled away, we revive and paint
anew. My summer island retreat is one of the joys
of my life. I am thrilled with it at its full season,
and when over, I look forward to its return.

We can learn so much from nature. In fact she is our greatest teacher. Her trees rest. Her shrubs and
flowers and her earth's soil as well. And many of the inhabitants of our outdoor world, go on vacation,
or live out weeks and months in rest. Man, the most intelligent of all creatures, is the most ignorant,
and wasteful of himself. He has not learned the philosophy of rest.

Even the heart takes a rest after each beat. Otherwise our lives would be shortened by one half. Every worker becomes a better one after a vacation of change and rest. Liberal vacations with pay are an investment for any concern. Energy is conserved and stored by periodic rests.

Said Thoreau: "I love to have the river closed up for the season and a pause, put to my boating, to be obliged to get my boat in. I shall launch it again in the spring with so much more pleasure." Nature does not let us down. She keeps prodding us to listen to her admonitions, to her laws, and to her eternal verities. Tomorrow Mr. Adams will talk on the subject: "Smiles."

PORTRAITS ARE MENTAL

The portrait painter sadly said: "No man looks natural 'til he's dead. Seen through the eyes of all he knows."

To each he has a different pose. And different eyes and mouth and nose.

"His loved ones never seem to see The man as he appears to me. Friends at my painting stand and stare And one will solemnly declare: 'That's not the way he combed his hair.'"

"That's not his mouth," another cries. A third: "I'm sure you've missed his eyes. The portrait's like him, in a way, But somewhere you have gone astray. It's not the man I know, I'd say."

"So strangely works man's spirit, he Becomes what others think they see. To please a hundred friends I'd need A hundred hearts and minds to read With any portrait to succeed."

STAMP "DEAL" COSTS JOB FOR POSTAL OFFICIAL

Washington, Feb. 8 (AP)—A high postoffice official has quit—by request—in connection with dealings in special stamp issues which reportedly cost "investors" hundreds of thousands of dollars.

Postmaster General Donaldson confirmed last night that Harold P. Ambrose, his special assistant in charge of public relations, had been asked to resign and had done so January 11.

Donaldson would not discuss the case in detail, saying that it was "still under investigation by the postoffice inspectors."

He did say he had requested the resignation after getting reports that Ambrose had offered to act as agent for buyers of large blocks of commemorative stamp issues.

Had \$10,000 Job

Ambrose, married to a niece of Senator O'Mahoney (D-Wyo.), was said to have entered the postoffice department's information section in 1933, when the senator was first assistant postmaster. The special assistant's job Ambrose held until recently pays \$10,000 a year.

Mrs. O'Mahoney told newsmen last night that Ambrose had gone to the senator and reported being "in a jam." O'Mahoney's advice, she said, was to tell the full story to Donaldson, then quit.

There had been reports that a postal official had promised a 50 per cent profit in 90 days to investors in eastern cities who went in on a scheme to buy and sell special stamp issues.

Made No Personal Profit
Officials said close to \$400,000 was invested on the basis of that promise. While early investors reportedly got their promised profits, others were left with losses of over \$200,000 when the scheme blew up.

Mrs. O'Mahoney said Ambrose "didn't make a dime," to her knowledge, out of the dealings which resulted in his ouster from the post-office department.

Officials said they understood Ambrose used postoffice stationery, but they said no government funds were involved in any way. No charges have been filed, they added.

DAIRYMEN ARE VICTIMS OF OWN "EFFICIENCY"

Harrisburg, Feb. 8 (AP)—Pennsylvania dairy farmers are finding themselves victims of their own production ability.

Record-breaking milk production in the Commonwealth is glutting markets and threatening price levels. The State Milk Control commission already has several requests before it to reduce prices in various milk marketing areas to encourage increased consumption.

And dairy organization leaders are asking their members to cut down on production during the so-called "flush" milk producing months.

Weather Contributed

B. H. Welty, president of the Interstate Milk Producers cooperative, issued a request to dairy men to "aim to cut down spring milk production, and avoid an excess of fluid milk from April to June."

Welty explained that the unusually open winter this year has boosted milk production, and if the condition carries over to the spring months it will tax markets to the limit.

Pennsylvania dairy cows set a new high record in 1949. They produced 5,799,000,000 pounds of milk, topping the previous record set in 1947 by six per cent.

Milk production in Pennsylvania last year was higher every month compared with 1948. December ended the peak year with a record production of 449,000,000 pounds.

TREE FARM PLAN IS URGED UPON TIMBER OWNERS

There are many landowners in Adams county and throughout Pennsylvania who could have their woodlands officially certified as tree farms, the Department of Forests and Waters said today.

"Any private landowner who has a suitable woodlot, as judged by technical foresters, and who follows proper management and utilization practices, can have his woodland officially certified as a tree farm," an official in the department said.

The Pennsylvania Tree Farm system is sponsored jointly by the Pennsylvania Department of Forests and Waters in cooperation with the Pennsylvania Forestry Association.

Offer Advice
The aim of the plan is to offer counsel to landowners on how to best utilize their woodlands and tree planning operations to secure the maximum income and production from their woodlots.

"In one case an owner had cleared \$3,000 by following our forester's advice on select cutting and taking advantage of a market demand for timber," the department spokesman said.

"This represents a sum which will not only pay the taxes on the land itself, but enable the landowner to realize a profit as well."

Already In 18 Counties
Advice on what tree species to plant, which varies with types of soil and on the local market possibilities, is also provided by the department.

Already there are 69,244 acres of

officially certified tree farms representing 62 different ownerships in 18 counties throughout the Commonwealth, the department said. At the present time Pennsylvania leads all other eastern states in the number of tree farms.

These tree farms are managed in accordance with modern forestry techniques. Various types of management and silviculture systems are practiced depending upon the kind of wood products the landowner wishes to raise.

BIGGER TURKEY CROP PLANNED

It is still many months before turkeys will be needed for 1950 Thanksgiving and Christmas dinners, but farmers of Pennsylvania are getting ready to provide the biggest turkey crop since 1945.

Indicated production of 1,419,000 holiday birds for this year was reported today by the state Department of Agriculture from surveys by the Federal-State Crop Reporting Service. This is 41,000 or three per cent more turkeys than produced in 1949, but 41,000 under the State record. The 1942-46 average production was 1,181,000 birds.

A year ago turkey growers of Pennsylvania gave indication they would produce 1,441,000 birds in 1949. However, actual production was estimated at 1,378,000. Whether there will be a decrease or increase from present intentions will depend on various factors, including the effect

More Pigs Produced In Pa. Farms In '49

More pigs were produced on Pennsylvania farms in 1949 than for any year since 1943 when an all-time record was set, the state Department of Agriculture reported.

The 1949 fall crop totaled 490,000 pigs saved from 72,000 farrowings a Federal-State survey revealed. These, added to the spring crop of 598,000 pigs give a total for the year of 1,088,000 or \$5,000 more than for 1948. The all-time record for Pennsylvania was 1,357,000 pigs farrowed in 1943, peak of production in wartime.

In this report, officials pointed out. Individual growers in scattered localities report 1949 demand was good and sales brisk and they intend raising more turkeys this year. Some growers report feed prices are too high in relation to the prices they have been receiving for turkeys.

ACQUIT GIRL IN MERCY SLAYING OF ILL FATHER

By ARTHUR EVERETT

Bridgeport, Conn., Feb. 8 (AP)—Carol Ann Paigh, acquitted in the mercy slaying of her cancer-ridden father, planned today to return to college as soon as she rests up from the ordeal of her trial.

The 21-year-old blonde, who pleaded temporary insanity, was freed last night by a jury of 12 parents.

She spent her first night at home in nearby Stamford since the shot her father, Police Sergeant Carl Paigh, last September 23 as he slept in Stamford hospital.

"In God," the attractive six-foot, five-inch girl, sobbed as she broke down at the verdict. She was near complete collapse.

Not A Precedent

Her attorney, David Goldstein, termed the verdict "just and fair," but added: "This is no precedent for a mercy killing, in my opinion." He said the case was tried solely on the issue of whether Carol was insane at the time of the shooting.

State's Attorney Lorin W. Willis declined to see newsmen. He sent out word that he had no comment. The jury deliberated four hours and 51 minutes before Foreman Judith Menhard, 52, announced the verdict. The trial lasted two weeks.

Carol was charged with second degree murder in Connecticut's first mercy slaying trial. She would have gone to prison for life if convicted. The jury also could have convicted her of manslaughter—with a maximum penalty up to 15 years in prison.

Light applause swept the courtroom at the verdict despite Superior Judge John A. Cornell's stern warning against any demonstration.

"Good Luck," Carol

Spectators thronged the corridors of the Fairfield county courthouse or more than 30 minutes to shout "good luck, Carol" as the girl left for home. Judge Cornell set her free within seconds after the verdict from her nine women and three men on the jury.

The jury members refused to say how many ballots they took. They said they pledged secrecy.

She testified she could not remember shooting her 52-year-old father as he lay in a drug-induced sleep after an operation that revealed his incurable cancer. He never knew he had the disease.

The girl, perspiring beneath photographic lights after the verdict, told newsmen she would return to New England college at Henniker, N. H., as soon as she rested.

Ex-Silver Shirts Leader Is Paroled

Washington, Feb. 8 (AP)—The U. S. Parole Board has granted a parole to William Dudley Pelley, founder and one-time leader of the Silver Shirts of America, who was convicted of sedition during World War II.

The 60-year-old Pelley has been in the Federal penitentiary at Terre Haute, Ind., since late in 1942, serving a 15-year sentence imposed by the Federal district court at Indianapolis. He will be freed February 14, the board said.

Eligible for parole since August 11, 1947, Pelley has made a strenuous effort to gain freedom during that time by applications to the parole board and by court action. He also has published pamphlets in which he claimed his trial had proved him only to be "a harsh and

STATE PLANS ROAD BUILDING

Philadelphia, Feb. 8 (AP)—Ray F. Smock, state highways secretary, said today Pennsylvania's highway program for 1950 calls for improvement of 1,700 miles of roads.

This will constitute the biggest improvement operation in a single year in Commonwealth history, Smock told the State Association of Township Supervisors.

Smock said the 1950 plans are part of a long-range improvement program estimated to cost \$162,500,000 a year for the next 10 years.

He also has published pamphlets in which he claimed his trial had proved him only to be "a harsh and

The highways secretary said the major portion of the cost of the program will be borne through revenues from the state's five-cent a gallon gasoline tax, and by the new state highway and bridge authority. The authority was set up by the 1949 Legislature to finance \$40,000,000 worth of road improvements through bond issues.

Meanwhile, Smock disclosed that Pennsylvania's 2,750,000 motorists paid \$142,272,000 in motor license fees and gas and fuel use taxes during 1949. This amounted to slightly less than \$52 per person, he said.

SAYS REDS HAVE USED H-BOMBS

London, Feb. 8 (AP)—The British editor who correctly predicted the Soviet Union would set off an atomic blast in 1949 Monday said the Soviets already have made and exploded a hydrogen super bomb.

The editor is 40-year-old Kenneth

de Courcy, editor of the monthly "Intelligence Digest" who claims to have sources of information on both sides of the iron curtain.

"There is now evidence of Russia having already made an H-bomb," de Courcy asserted in a statement to the press. "She has in fact made three and exploded one of them," the statement declared. He did not say when or where the purported

hydrogen bomb was tested.

De Courcy in January, 1949, predicted that Russia would attempt an atomic explosion in 1949. President Truman in September revealed there had been an atomic blast in Russia.

Milk Price Slash
Talk Stirs Storm

Harrisburg, Feb. 8 (AP)—A storm of controversy raged today around a proposal by the State Milk Control commission to slash milk prices two cents a quart in the Pittsburgh and Erie marketing areas.

The storm broke at a conference called here by the commission on

Monday to discuss the reduction, scheduled tentatively to go into effect February 16.

The proposed drop would reduce the price of retail milk to 19 cents in both the Pittsburgh and Erie areas. It also would drop producer prices in the Pittsburgh area from \$5.63 to \$4.78, a hundred pounds (46 2/3 quarts) and in the Erie area from \$5.60 to \$4.78.

Erie area termed the proposed reduction "unwarranted." Dairy men in the Pittsburgh area claimed it would virtually put them out of business.

The National Geographic society says that, contrary to general belief, only two important areas of Holland were flooded during the war.

Lancaster, Pa., Feb. 8 (AP)—Warden Walter Faust of Lancaster county prison says Edward L. Gibbs, Franklin and Marshall college student held in the slaying of Marian Louise Baker, will be given ink blot tests "in the near future."

Gibbs, a married senior from Pittman, N. J., is being held without

bail on a murder charge in the fatal bludgeoning of the college stenographer last January 10. State

police said at his original hearing he signed a statement he killed the girl "on an impulse."

WHAT'S NEW IN THIS PICTURE?

Well, just look how the SPECIAL shines now! Brightwork on the fenders and around all windows. A name plate—and inside, door armrests, a robe rail, an extra ash tray. See the SPECIAL in de luxe finish at your dealer's.

Here's where Thrift and Glamor meet

Recognize this sprightly traveler?

Yes, it's the Buick SPECIAL 6-passenger Sedan that has caught the public fancy not only on its sleek lines, but on its easily-reachable price.

But notice anything new on it?

That's right — gleaming trim and the name plate "SPECIAL" bright-

ening up the fenders. Brightwork around the windshield and windows, too. And when you swing the door open you'll see still other touches of added luxury—side armrests, front and rear, a robe rail, an extra ash tray.

It's all still mighty thrifty, because this strapping straight-eight sells for less than many sixes.

Why not drop in and see for yourself, both how these added touches dress up this SPECIAL and how close it is in price to cars of much less room, riding comfort, standing and performance.

Your dealer will be glad to see you — glad to show you how this traveler handles—glad to sign you up for prompt delivery.

Ready for Plowing and Disking?

It takes sharp, rugged tools to do a good plowing or disking job. IH disk blades have crimped centers for greater strength at the point of greatest strain . . . and for a tight fit against the spacing spacers. IH blades are heat-treated, rolled and ground for a keen cutting edge to cut through stalks, roots and trash. See us today for new, sharp, long-life IH shares and disks.
